PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER

MAY - 2025

[VoteNaija - Nigeria's secure monetized voting platform](#)

- Developed and deployed a responsive web application to promote monetized voting and voter awareness across Nigeria.
- Integrated with backend services using Axios and RESTful APIs, enabling real-time data updates for elections, candidates, and polling units.
- Designed intuitive UI components with Shadcn/UI, ensuring accessibility and mobile-first responsiveness.
- Built with React.js, Tailwind CSS, and TypeScript for a performant and modern user experience.
- Implemented efficient data fetching and caching using TanStack Query (React Query), improving load times and API performance.
- Added secured payment gateway using paystack.
- Utilized contextApi for efficient state management and React Router DOM for smooth navigation between views.
- Added role-based authentication.
- Collaborated in a team using Git, GitHub Projects, and Figma for streamlined design-to-development handoff.

FRONTEND DEVELOPER

APR 2022 - 2024

Aledoy Solutions

[Corporate Website for Klinsheet Consulting Ltd](#)

- Developed a comprehensive corporate website for Klinsheet Consulting Ltd., effectively showcasing their services in background checks, recruitment, training, business advisory, and outsourcing.
- Implemented a responsive and user-friendly interface, ensuring seamless navigation across various devices and enhancing user engagement.
- Implemented SEO best practices to improve website rankings on search engines, increasing visibility and attracting a larger audience of potential clients.
- Utilized modern web development tools and frameworks, ensuring optimal performance, maintainability, and scalability of the website.
- Integrated service overview pages detailing offerings such as academic verification, previous employer checks, guarantor/reference checks, NYSC verification, address confirmation, credit checks, and criminal checks, providing clear and accessible information to potential clients.

Client's

Grand Field Consult Website - Freelance

- Developed a comprehensive consulting services website for Grand Field Consult Ltd., effectively showcasing their diverse offerings, including human resource training, travel services, financial solutions, and educational consultations.
- Integrated detailed service pages outlining offerings such as flight reservation & ticketing, visa processing, study abroad programs, hotel reservations, and more, providing clear and accessible information to potential clients.
- Developed a 'Book Now' feature, streamlining client inquiries and facilitating efficient communication between the company and prospective clients.
- Incorporated client testimonials, building trust and credibility by showcasing positive experiences from previous clients.
- Implemented a responsive and user-friendly interface, ensuring seamless navigation across various devices and enhancing user engagement.

FRONTEND DEVELOPER

APR 2022 - 2024

Aledoy solutions

Navaland Travel Website

- Developed a comprehensive travel and tours website for Navaland Travel & Tours Limited, effectively showcasing their services and enhancing online presence.
- Implemented a responsive and user-friendly interface, ensuring seamless navigation across various devices and improving user engagement.
- Developed a 'Book a Tour' feature, streamlining client inquiries and facilitating efficient communication between the company and prospective clients.
- Ensured compliance with SEO best practices, improving search engine visibility and attracting a broader audience.

SaaS Landing Page

- Developed a responsive SaaS landing page using Next.js and TypeScript, providing a seamless user experience across various devices.
- Implemented a modern, intuitive user interface, enhancing user engagement and effectively showcasing product features.
- Applied TypeScript for static type checking, ensuring code reliability and maintainability.
- Ensured cross-browser compatibility, providing a consistent experience for users across different web browsers.
- Utilized server-side rendering with Next.js, improving SEO performance and reducing initial load times.

Job Portal App

- Developed a dynamic job portal application utilizing React.js, enhancing user engagement through interactive interfaces.
- Integrated Firebase for real-time data management, ensuring seamless synchronization between the client and the database.
- Implemented advanced filtering functionality, enabling users to efficiently search and sort job listings based on various criteria.
- Ensured responsive design across devices, providing an optimal user experience on both desktop and mobile platforms.
- Utilized Vite as the build tool, achieving faster development workflows and improved application performance.
- Applied best practices in state management, maintaining application scalability and code maintainability.
